Hijab and makeup for weddings, engagements and henna nights

Sinem offers hijab styling and makeup for weddings, civil ceremonies, engagements and henna nights, among other celebrations.

Wearing two outfits?

Share a photo of both necklines. You can discuss whether one drape will suit both dresses or whether you'd prefer a different look for the reception.

If you change outfits during the celebration

If you are wearing ivory for the ceremony and burgundy for the henna night, hold each fabric next to your face with the same lipstick on. You can see whether changing your scarf is enough or whether you would like a makeup touch-up too.
