Booking hijab or hair styling at home

To arrange a hair or hijab stylist at home, message Sinem on WhatsApp with the date, the address where you will get ready and the time you need to leave. Say who wants their hair styled and who will wear a hijab. Those details let her check the appointment and quote for the work.

Describe the finished look

“A low bun with a veil” or “a loosely draped hijab with a high collar” gives a clearer picture than “party styling”. Use that description when asking about availability and price.

When is your appointment confirmed?

When you receive a proposed time, check whether it is the start time or the time you will be ready. Ask Sinem to confirm the address and the service you have chosen together.
