Hair and hijab styling at home in Amsterdam

In Amsterdam, you can arrange bridal hair, occasion hairstyling or hijab styling at home. Makeup is available too. Start by deciding which details of your outfit you'd like to show.

Plan around your veil

An updo can keep an open back visible. If you'll wear a veil, include a photo of its comb or fastening when you ask about your appointment.

Compare the same veil with two hairstyles

If you are choosing between a half-up style and a bun, hold the veil at the same height with each one. A side photo shows how much of the hairstyle you can still see through the tulle.
