Arranging hijab styling at home in the Netherlands

Ask Sinem if she can come to your town on your date. Share the town and postcode, the occasion and whether you're looking for bridal hijab styling or a drape for an evening dress.

Getting ready away from home?

Give the address where you'll actually be dressing. This avoids confusion if you'll be at a relative's home or in another town. There's no travel charge.

Share the entrance you will use

A building can have several entrances on the same street. When you confirm, include the entrance and the name on the buzzer or the room number, especially if you are staying with family.
