Is there a travel fee for hijab styling at home?

For a home hijab appointment, the travel fee is zero, even if you are booking just for yourself. The quote covers the styling you agree on. If you want a bridal veil fitted or makeup as well, include it when asking for the total.

Which price should you ask for?

Say whether you want your scarf styled on its own or would also like makeup. If you'll be wearing a bridal veil, include a photo and ask for the total for that combination.

Even when you book just for yourself

If you only want your scarf styled for an engagement, you can book for yourself and still pay no travel fee. Ask for the price of that single service on your date.
