Arranging a home hijab appointment in Schiedam

Message Sinem on WhatsApp with when and where you're getting ready in Schiedam and how you'd like to wear your hijab. A photo of your own scarf helps when discussing the shape.

Put the outfit and scarf together

Hold the scarf against your dress and photograph the neckline in daylight. This shows where you'd like the folds to fall and which details you want to leave uncovered.

Leave room around your chair

A mirror directly above a sofa can be awkward for styling. Place your chair where Sinem can stand behind you and check the folds on both sides in the same mirror.
