Coordinating hijab and makeup in Schiedam

Sinem can style your hijab and do your makeup at home in Schiedam. The colour of your scarf and the makeup you feel comfortable wearing are good starting points.

Choose one detail to bring out

A pearl-edged scarf frames your face differently from a plain matte one. Show the fabric and your favourite lip colour when you discuss how defined you'd like your eyes and lips to be.

Look at the makeup with your scarf in place

Check your brows and blush with the scarf folded the way you will wear it to the celebration. Moving a fold slightly away from the cheek can change how the colour looks.
