Occasion hair, hijab and makeup in Rotterdam

In Rotterdam you can request home styling for a civil wedding, engagement, henna night, wedding reception or family celebration. A smooth hijab can show off a high collar at the town hall. For the evening, you might pair the same scarf with a stronger lip colour. If you are booking together, say which styling is for the bride and which guests are joining her.

Two celebrations in one day

Mention if you're going to city hall in the morning and hosting a reception in the evening. Photos of both outfits can help you decide whether one hairstyle or hijab drape will work for both.

From the civil ceremony to the evening party

For a dressier evening look without undoing a low bun, try the veil on its own first, then hold a decorative comb beside the bun. This helps you decide whether one base style suits both outfits.
