Who can book styling at home?

Sinem's services are for brides and guests looking for occasion hair, hijab styling or makeup. Mothers, sisters and friends of the bride can share their own styling requests too.

Ask about the particular service

If someone in your party wants a different service, such as a men's haircut, check whether it's offered before including them in the schedule.

If you are attending as a guest

Guests can share their own preferences too. An aunt who wants to keep her glasses on, for example, might ask for soft strands that sit clear of the arms of her frames.
