Accessories for bridal styling in Rotterdam

Availability for a Rotterdam appointment depends on the hair or hijab accessory you want. Send a reference photo and ask whether you should bring the piece and whether it adds to the price.

Gold, silver or pearl?

Place the piece beside your earrings and dress fabric. A close-up in daylight shows the tone and finish more clearly than a description such as “gold”.

Check weight as well as colour

A heavy brooch can pull a thin scarf to one side. Include a photo of the piece in your hand so its size is clearer than it would be in a product photo alone.
