How to arrange occasion styling at home

Start with the date, town and service you want. Message Sinem on WhatsApp to check availability for hairstyling, hijab styling or makeup.

What should you have to hand?

Have your dress, scarf or veil ready, or share a photo of it. Give the time you need to leave and ask how you should prepare your hair or skin for the style you choose.

If you are getting ready at someone else's home

If you are getting ready at a relative's home, decide who can answer the door while you are dressing. Let them know the agreed start time.
