Having your hijab styled at home in Rotterdam

To arrange a home visit in Rotterdam, send your neighbourhood, date and preferred style on WhatsApp. Mention whether you'll bring your own scarf or wear a bridal veil.

If you want coverage at the neck or shoulders

When sharing a reference, say how much of your neck and shoulders you'd like covered. That gives a clearer idea of the drape and scarf length you have in mind.

Check coverage while you move

If you would like the fabric to stay over your shoulder when greeting someone, try that movement during styling. Check both front and side views before the last fold is secured.
