Hijab styling and makeup at home in Utrecht

In Utrecht you can have your hijab styled and makeup done in one home visit for a wedding or engagement. Start with the scarf you will wear. Hold it near your face and decide whether you want the focus on your eyes or lips. Send your preference, the address in Utrecht and your departure time to discuss the combined appointment.

Start with the makeup you actually wear

If you usually wear just mascara, say so. If a dark liner is part of your everyday look, that's worth mentioning too. A photo of yourself in makeup you loved can be more helpful than a reference on someone else. Add a photo of your scarf or dress when you discuss colours.

Think about the way your scarf frames your face

Where the scarf sits along your temples and cheeks changes which features stand out. Tell Sinem how you plan to wear it. The sheen of a veil, the finish of a matte scarf or a favourite lip colour can all help you decide how soft or defined you want your makeup to look.

Ask about the combined price

Message Sinem on WhatsApp with your date, where you'll be getting ready in Utrecht, the number of people and the time everyone needs to be ready. Ask for the price of hijab styling and makeup together. Sinem has 20 years of experience and charges no travel fee.

Try the eye makeup with your glasses

If you wear glasses at the ceremony, try them on with your scarf when choosing your eye makeup. See where the frame sits in relation to your eyeliner and the fold at your temple.
