How much do hijab styling and makeup at home cost?

For hijab styling with makeup at home, ask for the price of both services together. Specify an occasion hijab or a bridal hijab with a veil and say which accessories you already own. To compare options within your budget, also ask what the hijab alone would cost. Sinem adds no travel fee.

Ask for a specific quote

Write “hijab only”, “hijab and makeup” or “bridal hijab with veil and makeup”. Mention any accessories you already own. That makes it clear which services the price covers.

Compare like-for-like services

When comparing two quotes, note whether each covers a guest or a bride, whether makeup is included and whether you bring your own veil. That makes a difference in the totals easier to understand.
