What experience does Sinem have in bridal hijab styling?

Sinem has 20 years of experience, including styling hijabs for brides. For a bridal look, she considers how the folds frame your face, where the neckline sits and how you want your veil to fall.

Ask to see a similar veil fitting

A short veil on a smooth scarf needs a different finish from a long lace veil. Show the veil you will wear and ask Sinem to talk you through a similar pairing from her work.
