How much does hijab styling at home cost in Zaandam?

The price of home hijab styling in Zaandam depends on the look you book. For a useful comparison, ask separately about a simple occasion hijab and a bridal hijab with a veil and makeup. Say which scarf and accessories you will supply. Sinem charges no travel fee for coming to your address.

How to ask for a quote

Include the date, where you'll be getting ready and a short description of the look. For example: "My engagement is on [date] in Zaandam. I'd like a simply draped hijab and makeup. How much would those cost together?" Mention any veil or headpiece you want worked into the style.

Which services should the quote cover?

If you and a guest are getting ready together, list the services each person wants. That makes it easy to ask for a price per person and a total. Let Sinem know if you already have your scarf, undercap or veil, and ask what you should have ready on the day.

Is travel extra?

There's no travel charge for the visit. If you have a budget in mind, include it when you message and ask which styling options fit.

Ask about a second look separately

If you are considering different folds for the evening, give the time you intend to change and ask whether a second styling is available. Then compare a price for one look with a price for both appointments.
