How does styling differ for an engagement, civil ceremony and wedding?

For an engagement, consider the colour of your outfit and the light at the venue. A simple hairstyle or a clean hijab drape photographs well at a civil ceremony. For a wedding, also plan how the veil will be attached and removed.

Use one base for two parts of the day

A smooth bun can be worn plain at the civil ceremony and with a comb in the evening. If you would also like a different scarf or a new hairstyle later, ask whether you need a second appointment.
