What hair and hijab styling can I book at home in the Netherlands?

For a celebration in the Netherlands, you can request hair, hijab styling or makeup at home, separately or together. For a civil wedding, a smooth hijab can bring out a high collar. A low side-parted bun can show off earrings at an engagement. Brides wearing a veil can also plan where it will fasten.

For a hairstyle, say whether you want to keep your own curl or wave. For hijab styling, start with the fabric and the coverage you like. Each gives Sinem a clear starting point for her suggestions.
