How do I care for my hijab after a special occasion?

After the event, take out the pins and ornaments and let the scarf air. Follow its care label for washing, drying and ironing. Silk, chiffon and an embellished scarf may each need different care.

Storing your scarf

Store the scarf clean and dry, with pins and jewellery kept separately. Check embellished edges before folding so beads or hooks do not catch the fabric. Follow the manufacturer's instructions for the material you have.

Unpacking an embellished scarf

Unpack a stored scarf ahead of your next celebration. Check for any pin left in a fold and make sure the embellishments are still secure, while there is time to deal with them.
