How do I plan my bridal hairstyle in Amsterdam?

For your wedding morning in Amsterdam, work backwards from the time you leave for the ceremony or photographs. Then choose a style that frames your neckline the way you like and provides a secure place for a veil or hairpiece.

How should you prepare your hair the night before?

Before washing your hair, ask Sinem whether your chosen style calls for any particular preparation. If you usually wear your natural curls, send a photo before deciding to blow-dry them straight for the appointment.
