Can I discuss a custom veil for my appointment in Almere?

For a custom veil for your Almere wedding, ask Sinem what is available for your date. Send the length you have in mind, a photo of the dress and a reference for the edging. Agree the details and cost of any custom work separately.

Start measuring where the veil will attach

Ask someone to hold one end of a ribbon where the comb will sit and measure to your chosen hem. Wear your wedding shoes for a floor-length veil and note the attachment point alongside the measurement.
