How do I choose a hair accessory for the wedding day?

Try the accessory with your dress, earrings and veil. Check the front and side views. If it is a comb or tiara, make sure it feels comfortable when you turn your head or lean back in a chair.

Check whether the back catches on tulle

Gently draw a spare scrap of tulle across the back of the ornament before it goes near your veil. If it snags on a setting or edge, try wearing the piece where it won't rub against the veil.
