How do I prepare for a bridal hair trial?

First ask whether a trial is available for your date and what it costs. Bring your veil, hair accessories and a photo of the neckline. Pick one or two styles to compare and photograph your favourite from several angles.

Notice what changes after the trial

If you can keep your trial style in for a few hours, note which strand slips first or where a pin starts to press. Point out that exact spot to your stylist before the wedding-day styling begins.
