How do I choose my hairstyle for my wedding day?

Shortlist hairstyles that feel like something you would actually wear. Compare them with your hair length, neckline and plans for the day. Think about how each one will feel when you walk, sit, hug people or dance.

What do you do with your hair during dinner?

If you usually tie loose hair back halfway through a meal, try a half-up style that keeps the front sections out of your face. You can still wear the length down without moving it aside throughout dinner.
