Which bridal styling services can I have at home?

As a bride, you can request bridal hair or a bridal hijab and makeup from Sinem. If you have a veil, say whether you will wear it all day or remove it after the ceremony. That affects where and how it should be fastened.

A different look for the evening reception

If you're changing dress or scarf after the ceremony, lay out both outfits. Discuss which parts of the first look can stay in place and whether you'd like help with the change. Check availability for that later time separately.
