How do I choose an at-home stylist in Rotterdam?

When choosing a home stylist in Rotterdam, ask two things alongside the price. Can they show you a hairstyle or hijab like the one you want, and when can you be ready at your address? Describe the same look, accessories and number of people in each enquiry so you can compare like for like.

If you receive two total prices for styling in Rotterdam, check who and what each one covers. Hair for two guests is a different booking from hair and makeup for those same two guests.
