Which makeup products will be used at my appointment?

Discuss the products for your look before the appointment. Share the finish and colours you like and any products or ingredients you want to avoid. If a particular product matters to you, ask about it by name.

A lip colour you can touch up yourself

If you want to touch up after dinner with a shade you already own, bring the lipstick and ask whether it suits the look you've agreed on. Then put it straight into the bag you'll take to the celebration.
