Can I ask about styling for a child at my appointment?

If you would like a child to get ready with you, mention their age and the styling you have in mind. Ask separately whether this is available on your date and how much time to allow. A haircut would need its own confirmation.

Choose a style the child actually likes

Let the child choose between two simple options at home, such as loose hair with a clip or a ponytail with a ribbon. Mention if tight ponytails, lots of pins or sitting still for a long time feel uncomfortable for them.
